

## Small avalanche north of Bridger Bowl

The Ramp  
Bridger Range  
1/22/2019  
Code  
SS-R2-D1.5-I  
Latitude  
45.82710  
Longitude  
-110.93200  
Notes

"We noticed this broken [slab](#) debris en route to ski the ramp north of Bridger Bowl yesterday. It was at the ridge line, and the crown was about 18 inches tall. It didn't [slide](#) very far, due to its lower angle (<30 degrees) and it is unclear if it slid naturally or from a skier poking over to check it out. It was located above cliffy, high consequence terrain."
