

Many small wet loose slides

3/6/2020

Code

WL-N-R1-D1

Notes

Numerous small wet loose avalanches on 3/6/2020.

S. Gallatins - from email: "Five small wet slides across the big sky trail in Buffalo Horn this afternoon. The biggest was probably 120' long and 50' wide."

Bridgers - "Saw some small avalanche activity. A few wet loose on east to south aspects... Wet loose activity I saw was D1 on Bridger peak from below high cliffs. 2x D1.5s in Argentina Bowl. and 2-3 other D1s near the Throne. Largest was on the Hollywood Wall in Frazier where I saw a debris pile of D2 size, but can't tell if it was loose or [slab](#)."

S. Madisons - "Slopes across from Bacon Rind. 8 or so natural D1 wet slides. Points releases to small wet slabs."
