## **Small avalanche Lower Nose**

Bridger Bowl Bridger Range 11/24/2022 Code SS-R1-D1-I Elevation 7500 Aspect E Latitude 45.81560 Longitude -110.92300 Notes

Skiers at Bridger Bowl observed a small avalanche that was likely human-triggered on the Lower Nose. New snow and wind combined to created instabilities on slopes. The ski area is closed and represents a backcountry snowpack until the ski patrol begins avalanche mitigation in preparation for the opening.
