

Avalanches on Bridger Canyon drive

Date

Tue, 02/07/2023 - 07:05

One maybe two distinct seemingly natural large natural slab avalanches on small slope directly next to bridger canyon drive. One on the lookers left was likely cornice triggered, but on the right it's unclear to me if it propagated or released naturally.

Region

Bridger Range

Location (from list)

BRIDGER RANGE

Observer Name

Scott McCaffrey
