E

Latitude

45.81560

Longitude

-110.92300

Notes

Yesterday 4/25, Walked to the top of Pierre's Knob. The snow was unconsolidated mush, very sticky skiing. While hanging out at the top shack (at 1130am) I heard 3 large avalanches running in the south bowl, white out conditions so was unable to see how big the slides were they sounded like they ran a long ways.
