

Wind slabs at Bradley's

Date

Sat, 02/17/2024 - 13:45

Activity

Snowboarding

Some cracks but not shooting.

Slabs growing at top of Bradley's meadow, around 15-25cm in thickness.

East winds did a number and grew slabs in non-typical locations.

Region

Bridger Range

Location (from list)

Bradley Meadow

Observer Name

Zach bailey
