

Wind slabs near Buck Ridge

Buck Ridge

Northern Madison

3/22/2025

Code

SS-N-R1-D1

Elevation

9200

Aspect

N

Latitude

45.17190

Longitude

-111.38000

Notes

We rode into all three Yellow Mule drainages and the head of Muddy Creek. It was snowing hard and wind was blowing strong this morning. In the afternoon, clouds lifted and snow let up. Skies remained mostly cloudy, but with high clouds there was decent visibility at the end of the day. There were 10-12" of new snow since last weekend, 2-4" low density fell this morning.

There was a small [wind slab](#) avalanche in McAtee (Photo) and a small [wind slab](#) in Beaver Creek.
